## Work Experience

### FullStack Developer

#### OSKI (<https://oski.site>)— Ukraine | 2024–

- Contributed to the development of the Allmishna - application — a comprehensive platform for Jewish learning that offers video, PDF, and HTML content, along with hundreds of features serving thousands of users.
- Developed a shared NPM package used across multiple applications, ensuring code reusability and maintainability.
- Contributed to mobile and tablet applications built with React Native (Expo), Firebase, and SQL.
- Delivered responsive UI/UX design with React Hooks, animations (Reanimated), and typed components.
- Ensured code quality and version control through Git-based workflows and peer reviews.

### FullStack Developer

#### TMC Company (<https://ctotmc.com>)— Switzerland | 2023–2024

- Developed and published the cross-platform Messo secure messenger app using React Native (Expo), Node.js, Firebase, WebSocket, MySQL, and Firestore.
- Implemented push notifications, camera integration, QR code scanning, async storage, and data synchronization across SQL and NoSQL databases.
- Contributed to the backend (Express, Firebase, Amazon S3) and company website (<https://messo.io>).
- Submitted the app to App Store and Google Play.
- Built BlueBox Driver mobile app for logistics and order management, including route tracking and driver-client communication, using React Native (Expo), Node.js, Express, and SQL.
- Contributed to the company website (<https://bluebox.rent>).
- Implemented full-stack functionality for JobApply24 (<https://jobapply24.com>) with React, Node.js, and MongoDB.
- Designed and enhanced job search and listing workflows with custom UI components and backend APIs.
- Developed reusable backend services (Node.js, MongoDB, Prisma, Docker) including authentication, OAuth, role-based access, validation, and file upload.
- Applied RESTful principles and conducted API testing with Postman.

### Skills

GitHub Copilot (agents, instructions), React Native (Expo), React, JavaScript, TypeScript, HTML, CSS, Sass, Responsive Design, Redux, Node.js, Express.js, REST API, WebSocket, Firebase (Firestore), SQL (MySQL, PostgreSQL), NoSQL (MongoDB), Prisma, GitHub, Postman, Axios, Amazon S3, Webpack, Parcel.

### Social Activity

- take a part as a mentor in codeQuest 2024(Jugend-Hackathon), Zurich, [info link](#)
